EXPERIENCE

Web Designer/Web QA - eClerx (Fulltime)

May 2025 – Present

- Designed and customized websites tailored to each client's business goals and branding, using the Duda platform.
- Applied creative design principles by refining layouts, typography, spacing, and visual hierarchy to produce engaging, user-friendly websites that balance aesthetics with usability while maintaining brand consistency.
- Applied best practices in SEO by optimizing alt tags, headings, and page slugs to improve search visibility.
- Conducted thorough audits and quality within the team to ensure all websites were responsive, visually consistent, and met external and client standards before delivery.

Frontend Developer - PartsEZI (Freelance)

June 2024– February 2025

- Created static pages for PartsEZI, an Australian auto parts business.
- Collaborated with stakeholders on branding and user needs.
- Built responsive and user-friendly designs for all devices.
- Utilized HTML, CSS, JavaScript, and the Metronic Theme.
- Learn knowledge of AWS Lightsail and WordPress for hosting and content management.

Programmer & IT Support – Municipality of Pagsanjan (OJT)

February 2024 – March 2024

- Developed a Java and JavaFX application for property assessment archiving in the Assessor's Office.
- Provided technical support and troubleshooting for PCs to maintain smooth operations.
